Network weaving: connect people

Network weaving: connect people

What?

Network for Energy, Water and Health in Affordable Buildings

A future where any owner can improve their affordable, multifamily housing to be healthy, comfortable, durable, and to use energy and water efficiently.

But...

So What?

What connections, knowledge, resources did you find the most exciting?

What makes it so valuable to you?

Now What?

What possibility do you see that we can accomplish together, having found those connections, knowledge, and resources?

Imaginal Cells
